RG

Infotech is an India based global Web Development and Mobile App Development Company. We have 10+ years of experience in web-applications development as well as desktop applications.

RG Infotech was incorporated in 2007 with a mission of servicing for IT services across the globe to grow online and spread beyond the geographical borders.

Since our inception, RG Infotech has been providing, Web and Software development and other IT related solution.

We combine proven methodologies and technology expertise of skilled IT professionals to deliver high-quality solutions and offer custom, cost-effective and search engine friendly web solutions.

Overview

Our Team's hard work makes us stand out – whether you need a top-notch expert with niche skills RG Infotech has a pool of more than 400 IT professionals.

Our aim is to provide the latest, unique and the best web-based solutions at quite affordable rates to our clients. We believe in long-term relationships with our clients through our aim of Customer Satisfaction, commitment to Quality and more than Customer Expectations.

Our clients range from small start-up businesses, of sizable, brand recognizable organizations. Whatever your business, we will help it to perform better just like we've done for our clients.

Our Website Developers have successfully designed and launched cost effective website for individuals and businesses worldwide, from high-end e-commerce website development to the simplest logo design needs.

...

Success Stories

“

It was great working with Ramakant, he understood the guidelines to the assignment well and did great work in a short amount of time. He delivered quality work on time.

“

Ramakant G. is a very good professional. It was the 2nd time I worked with him, and I was very pleased with the outcome. Will comeback again, with another project!

FLORIAN V.
